The next exploitation meeting would be held in ISPRA / VARESE before the final workshop EURITRACK on Monday 10th of September 2007

held in Rijeka, the 22 and 23 February 2007. The first day was dedicated to the presentation and to the assessment of every workpackage for the second year of the project. The second day was dedicated to the presentation of the demonstrator in the port of Rijeka, with the Croatian harbour and customs authorities. In this occasion, a report of the Croatian television was realized to pass in the evening news.

The first report with the European commission conclusions will soon reach the consortium.

Portal tests in RIJEKA

The phase of demonstration in the port of Rijeka began since January 2007 with various phases: assembly of the gantry, qualification of the system, calibration and first tries (calibration, answer of detectors, etc.), first controls of containers. This phase will continue until June, 2007.
